

Legislation maze: noise

Charlton Smith, Nick, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20440065&lokasi=lokal>

Abstrak

Noise is a matter of critical concern at every stage of construction projects and is controlled through a broad array of Acts, regulations and standards.

Set out along the "RIBA Plan of Work", this work helps designers to understand the practical implications of the legislation, highlighting particular problem areas and offering pointers about how they may be resolved. It is part of the "Legislation Maze" series.
