

Competency-based training basics

Rothwell, William J., 1951-, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20440992&lokasi=lokal>

Abstrak

Competency-based training is a unique approach to training design that builds and enhances individual competencies in line with previously identified profiles of success. This demonstrates how to assess which competencies are important to an organization and individual positions, and design training around those competencies.
