The Supply Chain Council (SCC) is a nonprofit organization dedicated to developing best practices in supply chain management. Now in a newly revised, second edition, "Supply Chain Excellence" is the first and only book on the DCOR, CCOR, and SCOR Models. It gives professionals implementing new supply chain projects a clear, step-by-step guide to adopting the accepted and proven methodologies developed by the SCC. Complete with new case studies, a Value Chain Excellence project roadmap, and the addition of the DCOR and CCOR process frameworks, the second edition of "Supply Chain Excellence" gives readers all the practical tools they need, whether they're trying to improve the performance of an existing supply chain system or implement a new one.
