

Select a performance management system: performance improvement

Solomon, Cynthia, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20441855&lokasi=lokal>

Abstrak

There are a number of performance management models available to help organizations achieve their desired level of performance. This Infoline will help you understand the general concepts behind these different models, identify the organizational domains you wish to improve, and select the right performance management model for your organization.
