Mind mapping for a business advantage: organization development

Lewis, Clive, author

Abstrak

Mind Mapping is a powerful way to increase efficiency, creativity, and organization. Mind Mapping is a note-taking system that uses images, color, words, and numbers arranged in a connected, radiant and hierarchical structure. Mind Mapping is useful in planning meetings, preparing for presentations, generating new ideas, and facilitation group discussion. This Infoline will teach readers the basics of creating Mind Maps and show readers how to use Mind Maps in a business setting.
