Abstrak

Annotation an engineer with experience in the automotive and chemical process industries, Budinski has compiled material he used to train new engineers and technicians in an attempt to get his co-workers to document their work in a reasonable manner. He does not focus on the mechanics of the English language, but on the types of documents that an average technical person will encounter in business, government, or industry. He also thinks that students with no technical background should be able to benefit from the tutorial.
