ABSTRACT

The existence of social media platforms is continuously penetrating our society Acquisti Gross, 2006 . This causes said platforms to not only act as a form of leisure, but also a routine in the daily activities of its users Debatin et al., 2009 . This research paper explores the perception university students have towards Facebook, one of the world rsquo s leading social media platforms, specifically in terms of their awareness towards the privacy and personal safety their accounts have, and to see whether or not the Ritualized Media Theory proposed by William Carey is valid.The existence of social media platforms is continuously penetrating our society Acquisti Gross, 2006 .
