Abstrak

ABSTRAK

Konsep keharmonisan antara manusia dengan alam diterapkan dalam Zhong Zhouxian di Beijing. Zhong Zhouxian adalah sebuah area di kota Beijing yang dilintasi oleh garis imajiner sepanjang 7,8 kilometer dan terbentang dari utara ke selatan. Garis ini menjadi pusat kota Beijing. Zhong Zhouxian masih berlaku hingga kini, telah dibangun sejak dinasti Yuan 1279-1368. Konsep keharmonisan antara manusia dengan alam dalam pembangunan Zhong Zhouxian di Beijing diwujudkan dalam aspek pemilihan lokasi, konfigurasi, dan penggunaan warna. Penelitian ini bertujuan untuk memaparkan konsep keharmonisan antara manusia dengan alam yang ditunjukkan dalam Zhong Zhouxian di Beijing. Kata kunci: alam; Beijing; harmonis; manusia; Poros Tengah

ABSTRACT

Abstract The concept of harmony between human and nature is realized in Zhong Zhouxian Central Axis in Beijing. Zhong Zhouxian is an area in Beijing which is crossed by an imaginary line that spans 7.8 kilometers that extends from north to south. This line is recognized as the center of the city of Beijing. Zhong Zhouxian that was built during the Yuan dynasty 1279-1368 is still preserved to this day. The concept of harmony between human and nature in the development of Zhong Zhouxian is manifested in the aspects of site selection, configuration, and the application of colors. This research aims to explain the concept of harmony between human and nature which is represented in Zhong Zhouxian in Beijing.
