Abstrak

Sekretariat Jenderal MPR Setjen MPR adalah lembaga pemerintah non kementerian yang merupakan kesekretariatan lembaga negara dan bertanggungjawab langsung kepada Pimpinan MPR. Setjen MPR terus berusaha meningkatkan layanan kepada MPR dan alat kelengkapannya serta masyarakat dengan memanfaatkan sistem informasi dan teknologi informasi SI/TI yang selaras dengan visi, misi dan sasaran strategis Setjen MPR. Namun pada kenyataannya, visi, misi dan sasaran strategis tadi belum tercapai karena kurangnya pemanfaatan SI/TI. Oleh karena itu, diperlukan perencanaan strategis sistem informasi untuk mewujudkan visi, misi dan sasaran strategis Setjen MPR. Penelitian ini bertujuan untuk menyusun perencanaan strategis sistem informasi Setjen MPR dengan metodologi Ward dan Peppard yang terdiri dari tahapan masukan dan keluaran. Penelitian ini melakukan wawancara dan diskusi kelompok terarah untuk pengumpulan data pada tahapan masukan, yang terdiri dari analisis kondisi internal dan eksternal bisnis dan SI/TI, di Setjen MPR. Data yang telah dikumpulkan diolah menggunakan analisis tematik. Penelitian ini menghasilkan rumusan strategi SI, strategi TI, strategi manajemen SI/TI, portofolio aplikasi mendatang dan peta jalan sehingga dapat mewujudkan visi, misi dan sasaran strategis Setjen MPR.

The Secretariat General of the People's Consultative Assembly of the Republic of Indonesia hereinafter referred to as "Setjen MPR" is a non ministerial government institution as the secretariat of a state institution. It is directly responsible to The Heads of People's Consultative Assembly of the Republic of Indonesia hereinafter referred to as "MPR RI". Setjen MPR continues to strive improvement of its service to MPR RI, its supporting agencies, and the communities in term of the performance of information systems and information technology hereinafter referred to as "IS IT" in accordance with its vision, mission, and strategic objectives. However, in reality, it had not been achieved due to the lack of utilization of IS IT. Therefore, strategic planning for information systems is necessary to realize its vision, mission, and strategic objectives. This study aimed to develop strategic planning for Setjen MPR's information systems using the methodology of "Ward and Peppard" which consists of input and output stages. The research is conducting interviews and focus groups discussion to collect data on the stage of entry, which consists of the analysis of internal and external conditions of business and IS IT in Setjen MPR. The data collected is processed by employing thematic analysis. The result of this research is the formulation of IS IT including its management strategy, the application portfolio, and roadmap in order to realize the vision, mission and strategic objectives of Setjen MPR.
