ABSTRAK

Praktek Kerja Profesi di PT Merck Tbk dilaksanakan selama 2 bulan yaitu pada tanggal 1 Agustus 2016 hingga tanggal 30 September 2016 di Departemen Pengawasan Mutu. Tujuan dari praktek kerja yang dilakukan adalah untuk memberikan gambaran, pengetahuan, dan pengalaman praktis kepada calon apoteker terutama mengenai kegiatan di Industri Farmasi. Kegiatan praktek kerja hampir semuanya dilaksanakan di Departemen Pengawasan Mutu. Namun, kunjungan ke departemen lain juga dilakukan seperti kunjungan ke departemen Pemastian Mutu, Produksi, Pengemasan, Supply Chain Management, Product Process Innovation, Environment Quality, dan Engineering. Pelaksanaan pembuatan obat yang dilakukan di PT Merck Tbk telah menerapkan prinsip Cara Pembuatan Obat yang Baik. Selain mempelajari tugas dari masing-masing departemen, penulis memiliki Tugas Khusus yaitu melakukan Validasi Metode Analisis untuk Sediaan Tablet Multivitamin dan Mineral dengan menggunakan Spektrofotometri Serapan Atom. Tujuan dari tugas khusus ini adalah untuk memperoleh metode yang valid dalam analisis mineral menggunakan Spektrofotometri Serapan Atom.
