

The international law-making process

Boyle, Alan, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20450638&lokasi=lokal>

Abstrak

Summary:

Presents a study of the principal negotiating processes and law-making tools by which international law is developed. This book looks at the UN, other international organisations, diplomatic conferences, codification bodies, NGOs, and courts in identifying the processes, participants and instruments employed in the making of international law
