Abstrak

"The Omaha System is a research-based, comprehensive classification designed to enhance health care practice, documentation, and information management. It is appropriate to use with individual, family, of community clients and is a useful tool to link clinical, demographic, administrative, and staffing data." "Regardless of your work setting. The Omaha System: A Key to Practice, Documentation, and Information Management, second edition, is ideal for health care practitioners, managers, educators, students, and software developers seeking information or guidance on this classification system."--BOOK JACKET.
