

Advances in materials technology for fossil power plants: proceedings from the fifth international conference, October 3-5, 2007 Marco Island, Florida, USA

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20451943&lokasi=lokal>

Abstrak

Several factors have renewed worldwide interest in advanced, high-efficiency coal power plants during the last decade. These factors include the abundance of coal and the need to maintain a viable coal option while reducing fuel costs, emissions, and waste from power plants.
