Introduction to radar target recognition

Tait, Peter, author

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20452635&lokasi=lokal

----

Abstrak

This book provides an overview of the whole radar target recognition process, and covers the key techniques being developed for operational systems. The book is based on the fundamental scientific principles of high resolution radar, and explains how the techniques can be used in real systems. Mathematics is kept to a minimum and the complex techniques and issues are discussed in a clear and physical way in order to make it accessible both to specialists and non specialists alike.
