

Radar imaging and holography

Pasmurov, Alexander Ya, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20452639&lokasi=lokal>

Abstrak

Increasing information content is an important scientific problem in modern observation systems development. Radar imaging can be used for this purpose. This new book focuses on holography and tomography for quasimonochromatic and broadband signals, and provides a detailed coverage of the basic physical methods, inverse problems and mathematical principles.
