### Abstrak

Semenjak implementasi Jaminan Kesehatan Nasional JKN, Puskesmas mendapat pembayaran dari Badan Penyelenggaran Jaminan Sosial BPJS Kesehatan berpadana kapitasi. Di Kota Lubuklinggau terdapat masalah mengenai sisa lebih perhitungan anggaran SiLPA di puskesmas yang rata-rata pertahunnya sebesar 23. Penelitian ini bertujuan menganalisis pemanfaatan dana kapitasi Puskesmas di Kota Lubuklinggau tahun 2014-2016. Penelitian kualitatif ini dilakukan di Puskesmas Simpang Periuk, Taba, Citra Medika dan Swasti Saba berdasarkan realisasi SiLPA terendah dan tertinggi, data dikumpulkan secara retrospektif. Hasil penelitian menunjukkan bahwa penggunaan dana kapitasi untuk jasa pelayanan telah sesuai target 69,5 sedangkan untuk kegiatan operasional penyerapan masih kecil 12,4. Puskesmas belum melaksanakan perencanaan sistematis dengan tahapan Planning, Organizing, Actuating, Controlling dalam pemanfaatan dana kapitasi. Aturan pemanfaatan yang dianggap rumit menyebabkan puskesmas tidak menyerap dana kapitasi tersebut. Pengawasan dan bimbingan diperlukan agar penyerapan dana kapitasi dapat ditingkatkan.

*<i>Since the implementation of National Health Insurance JKN, Health Center received payment from Social Security Administering Body for Health BPJS using capitation. In Lubuklinggau City there has been problem of utilizing capitation funds and financing surplus SiLPA which average 23 per year. This research aims to analyze the utilization of capitation funds in Lubuklinggau City 2014-2016. This qualitative study was implemented in Simpang Periuk Health Center, Taba, Citra Medika and Swasti Saba which are the lowest and highest SiLPA absorption, data were collected retrospectively. The study revealed that the capitation funds have been achieved the target 69,5 while spending for operational was still under utilized 12,4. The planning for using capitation funds was not systematically implemented using appropriate steps Planning, Organizing, Actuating, Controlling. Health centers thought the rule to use the funds was not easy to follow so they could not absorb the capitation funds. Monitoring and assistance are needed to improve the absorption of capitation funds.</i>*
