.....This report discusses the analysis of the determination of trading limit, the provision of financing facility of stock transaction and repo stock facility mainly to the retail customer in PT. CIMB Securities Indonesia. PT. CIMB Securities Indonesia has a framework for determining trading limits, providing share financing facilities and repo share facilities to the retail customers. Analysis conducted through the review of Standard Operating Procedures of the Company related to Trading Limit, Financing Facility of Stock Transaction, and Repo Share Facility as stipulated in Credit Control Policies and Procedures PT. CIMB Securities Indonesia. In addition, the results of the analysis also refer to the results of the examination by the Indonesia Stock Exchange against PT. CIMB Securities Indonesia as a member of the stock exchange. Based on the result of the analysis, it can be concluded that in the process of determining the trading limit, the provision of financing facility for stock transactions, and repo stock facilities there are still some things that are not in accordance with the Standard Operating Companies and the need to improve the quality of risk management at PT CIMB Securities Indonesia.
