Abstrak

ABSTRAK

Puskesmas merupakan fasilitas pelayanan kesehatan yang menyelenggarakan upaya kesehatan perseorangan dan masyarakat dengan mengutamakan upaya promotif dan preventif. Praktik kefarmasian di Puskesmas merupakan tanggung jawab seorang Apoteker. Praktik Kerja Profesi Apoteker di Puskesmas bertujuan agar calon Apoteker mengetahui peran dan tanggung jawab Apoteker di Puskesmas, memperoleh wawasan dan pengalaman terkait Praktik kefarmasian di Puskesmas serta melihat gambaran nyata permasalahan terkait pelayanan kefarmasian di Puskesmas. Tugas khusus yang diberikan berjudul "Bijak Menggunakan Antibiotik" dengan Media Booklet di Puskesmas Kecamatan Setiabudi Jakarta Selatan. Tujuan dilakukannya tugas khusus ini adalah memberi pendidikan kesehatan dengan tema Bijak Menggunakan Antibiotik kepada pasien dan membuat booklet sebagai media penyuluhan yang menarik, informatif dan edukatif.

ABSTRACT

Community Health Center is a health care facility that provides health service for individuals and community with prioritizing in promotive and preventive efforts. Pharmaceutical practice at the Community Health Center is Pharmacist's responsibility. Internship at Community Health Center aims to make pharmacist students know the roles and responsibilities of pharmacist at Community Health Center, to gain the knowledges and experiences about pharmaceutical practice at Community Health Center and observe the real condition of pharmaceutical practice's problems at Community Health Center. The specific assignment's title that was given is "Be Wise in Using Antibiotics" with Booklet as the Media of Education at Setiabudi Community Health Center, South Jakarta. The aim of this assignment is to give health education about being wise in using antibiotics for patients and to make the booklet as an informative, educative and attractive media for the people.
