Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20460137&lokasi=lokal>

Abstrak

Rangkaian upaya pembangunan di bidang kesehatan telah maju ke arah keterpaduan bagi seluruh masyarakat yang mencakup promotif, preventif, kuratif dan rehabilitatif yang bersifat menyeluruh terpadu dan berkesinambungan. Salah satu usaha dalam pembangunan kesehatan adalah melalui peningkatan fasilitas pelayanan kesehatan diantaranya adalah apotek. Pelaksanaan Praktek Kerja Profesi Apoteker PKPA di Apotek Prima Sehat merupakan salah satu sarana bagi calon Apoteker mendapatkan ilmu serta pengetahuan secara mendalam tentang penerapan standar pelayanan kefarmasian di apotek. Calon apoteker diharapkan dapat mengerti peranan, tugas dan tanggung jawab Apoteker dalam pengelolaan apotek serta melakukan praktek pelayanan kefarmasian sesuai dengan ketentuan perundang-undangan dan etika yang berlaku. Selain itu, calon apoteker diharapkan memiliki pengetahuan dan pengalaman praktis dan memiliki gambaran nyata tentang permasalahan praktek kefarmasian. Calon Apoteker juga diberikan tugas khusus yang berjudul "Pelayanan Kefarmasian di Rumah Home Pharmacy Care Obat Amlodipin";. Tugas khusus ini bertujuan agar calon apoteker dapat mampu memahami peran Apoteker dalam pelayanan kefarmasian di rumah Home Pharmacy Care untuk mencapai keberhasilan terapi pasien dan meningkatkan kompetensi apoteker dalam melakukan pelayanan kefarmasian.
