ABSTRAK

Apotek merupakan sarana pelayanan kefarmasian tempat apoteker melakukan praktik kefarmasian. Pelaksanaan Praktik Kerja Profesi Apoteker di Apotek Hidup Baru bertujuan untuk mendapatkan pengetahuan dan pemahaman tentang standar pelayanan kefarmasian di apotek serta mendapatkan gambaran secara nyata terhadap tugas dan tanggung jawab yang dilakukan oleh Apoteker di apotek. Melalui Praktik Kerja Profesi ini, mahasiswa dapat menerapkan ilmu yang telah dipelajari dengan melakukan kegiatan pelayanan kefarmasian seperti penyiapan obat, peracikan, pemberian informasi obat, dan konseling. Selain itu melalui tugas khusus, mahasiswa dapat memahami lebih dalam mengenai pengkajian resep.

ABSTRACT

A pharmacy is a pharmaceutical service facility where pharmacists perform pharmaceutical practices. Implementation of the Pharmacist Profession Practices at the Pharmacy of Life Bar is aimed at gaining knowledge and understanding of pharmacy service standards in pharmacies as well as getting a real picture of the duties and responsibilities undertaken by Pharmacists in pharmacies. Through this Professional Practice, students can apply the knowledge they have learned by doing pharmaceutical service activities such as drug preparation, compounding, giving drug information, and counseling. In addition through a special task, students can understand more deeply about prescription assessment.
