Summary:

"Whether you are a history buff, or fascinated by the military this large format book is just what you've been looking for. With authoritative text and plenty of photographs, maps and illustrations this book takes readers on an expedition back in time to prehistoric battles, and up to the present world of drones, and computer guided missiles and everything in between. Although the nature of war has changed, the reasons for war remain constant; wars are still waged over territory, resources, hatred, intolerance, and vengeance, or glory. This book will not only explain the major wars & battles but also the reasons those battles were waged. War may be hell but this book is heaven for military history buffs. - This large format 8.5 x 11 book is 320 pages long - Filled with 100 s of full color and black & white art, maps, timelines, illustrations and archival as well as current photographs - Each section offers a clear and consist explanation of the conflict and the outcomes." --Publisher description
