

Senjata dan teknik bertempur kesatria abad pertengahan 1000-1500 M

Dougherty, Martin, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20461561&lokasi=lokal>

Abstrak

Weapons and Fighting Techniques of the Medieval Warrior offers an highly-illustrated fact-filled introduction to the weaponry and fighting methods of the Middles Ages. Divided into four chapters, the main types of Medieval warrior are covered separately: mounted knights, foot soldiers, missile troops and siege engineers and sappers
