

The death of money : the coming collapse of the international monetary system

Rickards, James, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20464421&lokasi=lokal>

Abstrak

Here James Rickards explores the future of the international monetary system. In the last hundred years, the international financial system, the foundation for all global transactions, has collapsed three times - and it seems history is doomed to repeat itself. Rickards argues that 'money' and 'wealth' are very different things and while wealth relates to real assets, irresponsible governments and banks have spent decades abstracting and manipulating the definition of 'money' to suit their own ends
