Abstrak

ABSTRAK

Atmosfer galeri dipengaruhi oleh elemen ruang dan koleksi objek seni di dalamnya. Koleksi objek seni sebagai hal yang visual memberikan unsur materiil seperti skala, material/tekstur, warna, dan form. Sedangkan elemen ruang dapat memberikan unsur materiil dan juga non-materiil seperti cahaya, suara, penciuman, temperatur, juga skala, material/tekstur, warna, dan form. Staging dari berbagai unsur inilah yang memberikan kesatuan sebagai atmosfer yang kemudian dapat memberikan koherensi, keintiman, dan sirkulasi tertentu.

<i>ABSTRACT</i>

Atmosphere of a gallery is influenced by its spatial elements and art objects that are displayed within. As a visual display, art objects carry material elements such as scale, material texture, colors, and form. Meanwhile, spatial elements of a gallery may offer both material and immaterial elements such as light, sound, smell, temperature as well as scale, material texture, colors, and form. The staging of these elements defines the atmosphere which then creates certain coherence, intimacy, and circulation.
