Abstrak

Tesis ini membahas mengenai pengaruh Nokyo di dalam kebijakan sektor pertanian di bawah kepemimpinan Shinzo Abe, melalui penggunaan teori kelompok kepentingan. Penelitian ini adalah penelitian kualitatif dengan teknik pengumpulan data melalui studi literatur atau kajian pustaka, studi data resmi yang dipublikasikan oleh kementerian, media masa, dan situs-situs yang terkait langsung dengan objek penelitian. Hasil penelitian menunjukkan bahwa hubungan di antara LDP dan Nokyo masih sangat kuat terbukti dengan adanya kebijakan penyeimbang yang ditetapkan oleh pemerintah. Selain itu, re-organisasi Nokyo tidak melemahkan kebijakan pertanian melainkan lebih menguatkan sektor pertanian dan juga petani.

.....The purpose of this research is to identify the influence of Nokyo as an interest group on agricultural policy under Abe's Cabinet by using interest group theory. As a preliminary study this research employs qualitative method by collecting and analyzing data through literature review and some official data that are published by the media and website related to the research project. The result showed that relationship between LDP and Nokyo are still remain strong. Since Abe's Cabinet conducting a balancing policy to maintenance a good relationship with Nokyo after decided a new policy. Furthermore, Re organization under Abe's Cabinet not weaken the agricultural policy and farmers. The new agricultural policy, make an agricultural sector more competitive and farmers became more independent and strong.
