

Emotions, decision-making, conflict and cooperation

Luterbacher, Urs, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20469325&lokasi=lokal>

Abstrak

In order to use the perspective of emotions to explain conflict escalation and crises, a comparison to conceptions such as the pursuit of power or financial interests is warranted. These theoretical considerations are investigated within cases of civil wars and shown to be effective in explaining the origins but also the breakdown of conflicts.
