Abstrak

Praktek kerja profesi PKPA di Apotek Kimia Farma No. 254 Jakarta Barat periode Februari tahun 2018 bertujuan untuk memahami tugas dan tanggung jawab Apoteker dalam pengelolaan Apotek, serta melakukan praktik pelayanan kefarmasian sesuai dengan ketentuan perundang-undangan dan etika yang berlaku, memiliki wawasan, pengetahuan, keterampilan dan pengalaman praktis untuk melakukan praktik kefarmasian di Apotek, memiliki gambaran nyata tentang permasalahan praktik kefarmasian serta mempelajari strategi dan kegiatan-kegiatan yang dapat dilakukan dalam rangka pengembangan praktik kefarmasian. Selama menjalani PKPA, penulis belajar melakukan kegiatan manajerial Apotek dan pelayanan farmasi klinik. Penulis juga mendapatkan tugas khusus mengenai analisa dan pengkajian resep pasien jantung. Adapun tujuan dari tugas khusus ini adalah agar calon Apoteker dapat mengetahui penyakit jantung serta algoritma pengobatannya, menganalisis kelengkapan resep, serta melatih calon Apoteker untuk dapat memberikan pelayanan kefarmasian terkait pengobatan jantung. Secara keseluruhan, penulis telah mendapatkan pengalaman dan wawasan yang cukup dalam menjalani praktik kefarmasian di Apotek. <hr />Study Apprenticeship PKPA in Kimia Farma No. 254 West Jakarta February 2018 period aims to understand the duties and responsibilities of Pharmacists in the management of a community pharmacy, as well as to gain experience in doing a clinical pharmaceutical practice in accordance with the applicable laws and ethics, get the insight, knowledge, skill and practical experience to undertake pharmaceutical practices in community pharmacies, as well as have the brief view about pharmaceutical practice issues and learn the strategies or activities that can be taken in the course of pharmaceutical practice development. While doing the apprenticeship, author learned about doing managerial activities of the community pharmacy and clinical pharmaceutical practices. Author also got a special assignment about prescriptions analysis/assessment for cardiovascular patients. The purpose of the assignment itself was to improve Pharmacist's knowledge about cardiovascular disease and its treatment algorithm, prescription analysis, and clinical pharmaceutical practice related to cardiovascular patients' treatment. In general, author has had enough knowledge and experience in doing pharmaceutical practices in community pharmacies.
