ABSTRAK

Industri perfilman di Australia sedang dalam keadaan krisis, seperti yang terlihat dari hasil yang cukup fluktuatif dari tahun 1970an. Meskipun perfilman Australia sempat mengalami kejayaan di tahun debutnya 1906, keadaan semakin memburuk sejak tahun 1920an. Beberapa alasan telah ditemukan seperti keterbatasan dalam anggaran dan layar tayang, serta strategi distribusi yang salah. Makalah ini akan membahas penyebab yang telah disebutkan dan juga solusi terhadap kondisi perfilman di Australia yang memburuk.

ABSTRACT

Nowadays, Australian cinema has been considered in a state of crisis, as its performance has been fluctuating from 1970s. Although the industry has its greatness in its debut in 1906, the accomplishment has been declining from 1920s. There are some reasons of this condition such as limitations on budget and number of screens, as well as an incorrect distribution strategy. This paper will mainly focus on these reasons why Australian Cinema has not been improving, and providing solution as well.
