

An introduction to english phonetics

Ogden, Richard, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20481231&lokasi=lokal>

Abstrak

Summary:

This Bestselling textbook introduces undergraduates to the concepts, terminology and representations needed for an understanding of how English is pronounced around the world. Assuming no prior knowledge, it guides the reader through the vocal tract and explains how the sounds of speech are made.
