

Applied Categorical Data Analysis and Translational Research

Le, Chap T., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20482696&lokasi=lokal>

Abstrak

Summary:

This new edition continues to provide basic, comprehensive coverage of key methods in categorical data analysis with multiple variables. Maintaining the same nontechnical, user-friendly approach, coverage has been added to the Second Edition to take the topic of categorical data analysis into a more applied direction.
