Abstrak

In *Sainthood in Fragile States*, a wide range of social scientists explore the contested role of sainthood in the contemporary Middle East. By expanding the notion of sainthood to cover both the religious and secular ways of dealing with extraordinary events, people and things, the volume offers new insights into the way sainthood is embedded in various levels of everyday life, as well as national and international politics. The case studies highlight how fragility as a central aspect of sainthood is a productive force that often consolidates tales of the extraordinary, and is also the source of contesting social identities.
