ABSTRACT

This research aims to identify the risk available in telecommunication companies and evaluate them through data mining and risk identification. Some observation whilst doing the research might occur as well and will be stated in the research to deepen the understanding of the work atmosphere in a big four company. Ernst & Young, one of the world's leading professional services organizations, helps companies across the globe to identify and capitalize on business opportunities. this will help with the research as the author is going to undergo an internship there as a consultant in the IT Risk Advisory sector.
