Abstrak

ABSTRAK

Penelitian ini bertujuan mengestimasi dampak keterbukaan perdagangan terhadap skill premium berdasarkan metode produksi perusahaan. Menggunakan data level perusahaan sektor manufaktur tahun 2003-2015, hasil FE-IV menunjukkan bahwa dampak keterbukaan perdagangan terhadap skill premium berbeda.

ABSTRACT

This study aims to estimate the impact of trade openness on skill premium based on firms production methods. Using Indonesia firm-level data in the manufacturing sector from 2003 to 2015, our FE-IV estimation shows that the impact of trade openness on skill premium is mixed.
