

Biometrics under biomedical considerations

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20507051&lokasi=lokal>

Abstrak

This book addresses biometrics from a biomedical engineering point of view. Divided into five sections, it discusses topics including the influence of pathologies on various biometric modalities (e.g. face, iris, fingerprint), medical and security biometrics, behavioural biometrics, instrumentation, wearable technologies and imaging. The final chapters also present a number of case studies.
