

# Underwater real-time 3D acoustical imaging: theory, algorithm and system design

Chi, Cheng, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20509500&lokasi=lokal>

---

## Abstrak

This book presents the topic of underwater real-time 3-D acoustical imaging covering the theory, algorithms and system design. It summarizes recent advances in wideband and ultra-wideband underwater real-time 3-D acoustical imaging, which will be very useful for developing next-generation systems. Through simulation techniques, readers are able to quickly learn and develop practical underwater real-time 3-D acoustical imaging systems of their own.
