

The international law on foreign investment

Sornarajah, M.

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20510528&lokasi=lokal>

Abstrak

Addressing the pressing need to examine foreign investment law in the context of public international law, the role of the multinational corporation in foreign investment and issues of liability for environmental and other damage, this book analyses contractual and treaty-based methods of investment protection and examines the effectiveness of bilateral and regional investment treaties. By offering analysis of the law in historical, political and economic contexts, the book captures leading trends and charts the possible course of future developments.
