

How Indonesia' a-political health actors shaped Indonesia' mild securization of covid-19

Radesa Guntur Budipramono, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20512575&lokasi=lokal>

Abstrak

covid-19 response in Indonesia evolved from initial a-securitization towards a mildly securitized approach spearheaded by a tentative and lightly-enforced social restrictions, while eschewing public health conventions and the use of scientific evidence
