Abstrak

Skripsi ini membahas tentang pelaksanaan IPWL mengenai program wajib lapo berdasarkan Peraturan Pemerintah Nomor 25 Tahun 2011 di Lembaga Komunitas "X" Kota Depok. Disahkannya program wajib lapo dan menggandeng lembaga-lembaga terpilih sebagai pelaksana IPWL, merupakan sebuah wujud upaya pemerintah dalam mengatasi tingginya kasus penyalahgunaan narkoba di Indonesia serta bertujuan memberikan wadah bagi pecandu narkoba memperoleh haknya untuk sembuh melalui rehabilitasi (dalam penelitian ini rehabilitasi sosial). Tujuan penelitian ini adalah menganalisis pelaksanaan IPWL yang diselenggarakan di Lembaga Komunitas "X" Depok. Penelitian ini adalah penelitian kualitatif dengan desain deskriptif. Hasil penelitian ini menunjukkan pelaksanaan program wajib lapo di IPWL Lembaga Komunitas "X" Depok, melaksanakan tugas sebagai IPWL dengan SOP yang telah dibuat dan dikembangkannya sesuai pedoman Kementerian. Terdapat beberapa perbedaan dalam pelaksanaannya dengan Peraturan Pemerintah Nomor 25 Tahun 2011 yaitu tidak terdapat tenaga psikolog dan tenaga pekerja sosial secara langsung saat pelaksanaan, melainkan hanya pada saat rapat koordinasi dan workshop. IPWL Lembaga Komunitas "X" melaksanakan rehabilitasi sosial dengan metode "12 langkah" yang diterapkan dalam kehidupan sehari-hari dan juga dikemas kedalam kegiatan sharing feeling. Lembaga Komunitas "X" memiliki sumberdaya yang memadai serta struktur organisasi yang jelas. Di sisi lain, terdapat hambatan dalam pencairan dana/gaji oleh pemerintah bagi para tenaga pelaksana tetap IPWL Lembaga Komunitas "X" Depok yang perlu menjadi perhatian khusus dan evaluasi bagi pemerintah. Kemudian jam buka operasional Lembaga Komunitas "X" sebagai IPWL terlalu siang yaitu pukul 10.00 WIB, menyebabkan klien rawat jalan yang berstatus pekerja khususnya bekerja dengan sistem shift, mengalami kendala untuk melakukan konseling rutin mingguan. Wajib menjadi poin penting bagi IPWL Lembaga Komunitas "X" Depok untuk memperbaiki kebijakannya dan lebih memperhatikan hak klien rawat jalan.

This research is review about the implementation of IPWL on the 'Compulsory Reporting Program' based on Government Regulation Number 25 of 2011 in the "X" Community Institution in Depok. The existence of a "Compulsory Reporting Program" by the government in collaboration with attempt by the government to reduce the high number of cases of drug abuse in Indonesia, and aims to provide a forum for narcotics addicts to get their right to recover through rehabilitation, in this research, is social rehabilitation. The purpose of this research is to analyze the implementation of 'compulsory reporting' held at "X" Community Institution as IPWL. This research is a qualitative research with a descriptive design. The result of this research, it was found that the implementation of the "Compulsory Report Program" in Community Institutions "X" runs IPWL using a Standard Operating Procedure that has been developed according to the

guidelines given by the government. There are several differences in its application with government regulation number 25 of 2011. The difference is that there are no psychologists and social workers during the implementation, but only gathering during coordination meetings and workshops. The Community Institution "X" carries out social rehabilitation using the "12 steps" method which is applied in daily and also packaged into "Sharing Feeling" activities, there are has adequate resource and a clear organizational structure. However, there were still barriers to disbursement of funds (salary/incentive) by the government for the implementers of 'Compulsory Reporting Program', it must be a concern and evaluation for the government. Another barriers is, the Community Institution "X" has operating hours at 10.00 am. This causes difficulties for outpatient clients who are workers and have a shift system in their work to come for counseling with coucelor at IPWL of "X" Community Institution. Must be an important point for IPWL to improve their policies about the operating hours, and pay more attention to the rights of outpatient clients.
