Abstrak

Apoteker memiliki peranan yang penting untuk masyarakat terutama dibidang apotek, industri farmasi maupun pedagang besar farmasi. Untuk mempersiapkan apoteker yang profesional maka dilakukan Praktik Kerja Profesi Apoteker (PKPA) di beberapa tempat, sehingga diharapkan para calon apoteker dapat mengaplikasikan ilmu yang mereka dapatkan selama kuliah. Selain itu para calon apoteker mendapatkan ilmu baru yang belum pernah didapatkan sebelumnya di tempat PKPA. Pada kesempatan kali ini penulis berkesempatan melakukan PKPA di Apotek Safa, PT. Harsen Laboratories dan PT. Sammarie Tramedifa Periode September-Desember 2020. Selama PKPA diharapkan dapat menjadi calon apoteker yang profesional dan siap memasuki dunia kerja.

.....Apothecary have an important role for society, especially in the pharmacy, pharmaceutical industry and pharmaceutical wholesalers. To prepare apothecary pharmacists, the apothecary Professional Work Practice (PKPA) is carried out in several places, so that prospective pharmacists are expected to be able to apply the knowledge they have gained during college. In addition, prospective apothecary get new knowledge that has never been obtained before at the PKPA place. On this occasion the author had the opportunity to do PKPA at the Safa Pharmacy, PT. Harsen Laboratories and PT. Sammarie Tramedifa September-December 2020 period. During PKPA, it is hoped that you can become professional apothecary candidates who are ready to enter the world of work.
