Abstrak

Penelitian ini membahas tentang persekusi doxing yang terjadi pada jurnalis saat ini. Bukan hanya gaya hidup yang mengalami pergeseran di era digital seperti sekarang. Bentuk kekerasan terhadap jurnalis juga mengalami perubahan. Persekusi doxing, istilah yang masih cukup awam dalam kekerasan terhadap jurnalis, yang selama ini lebih banyak diketahui kekerasan hanya terjadi saat jurnalis bertugas di lapangan. Istilah persekusi sendiri selama ini erat dikaitkan dengan bentuk kekerasan yang terjadi secara fisik, merundung orang beramai-ramai. Sementara doxing, diketahui sebagai bentuk membuka identitas seseorang untuk kemudian beramai-ramai dihujat, atau tindakan penyelewengan lainnya. Kasus doxing terbaru terjadi pada jurnalis Liputan 6.com, Cakrayuri Nuralam. Peristiwa ini terjadi ketika ia menulis artikel tentang cek fakta untuk verifikasi adanya isu kalau politisi PDI Perjuangan Arteria Dahlan cucu dari pendiri PKI di Sumatra Barat (sumber: www.detik.com, 24/9/2020) Penelitian ini dilakukan untuk membuktikan adanya pola baru viktimisasi terhadap jurnalis di Indonesia dalam hal ini adalah persekusi doxing. Dengan menggunakan metode wawancara mendalam terhadap beberapa narasumber dari kalangan jurnalis ataupun organisasi jurnalis, penelitian berhasil menemukan kesamaan pola terjadinya persekusi doxing.

.....This research discusses the doxing persecution that occurs in journalists today. It's not just lifestyles that are experiencing a shift in the digital era like now. The form of violence against journalists has also changed. Persecution that is carried out, a term that is still quite common in violence against journalists, which so far is less known that violence only occurs when journalists are in the field. The term persecution itself has always been the management of disasters with violence that occurs physically, harassing people in large groups. Meanwhile, doxing is known as a form of revealing one's identity and then getting blasphemed or other acts of abuse. The latest doxing case happened to Liputan 6.com journalist, Cakrayuri Nuralam. This incident occurred when he wrote an article about a fact check to bring up the problem if PDI-P politician Arteria Dahlan was the grandson of the PKI founder in West Sumatra (source: www.detik.com, 24/9/2020) This research was conducted to prove new patterns of victimization. Against Indonesian journalists in this case is doxing execution. By using the in-depth interview method with several sources from journalists and journalist organizations, the research was able to find patterns of persecution.
