## Abstrak

Profesi apoteker memiliki peranan penting dalam pekerjaan kefarmasian. Salah satu hal penting yang harus dilakukan untuk menjadi seorang apoteker professional adalah berpartisipasi langsung dalam melakukan praktik kefarmasian. Apoteker merupakan profesional di bidang kesehatan yang berperan dalam memberikan informasi tentang obat-obatan yang akan dikonsumsi, memastikan bahwa segala aspek di industri farmasi sejalan dengan ketentuan pada CPOB dan menjadi penanggung jawab pada pelaksanaan distribusi obat. Melalui Praktik Kerja Profesi Apoteker, diharapkan calon apoteker dapat memahami apa yang menjadi tugas dan tanggung jawabnya. Praktik kerja dilaksanakan dari September hingga Desember 2021. Praktik kerja dilakukan di PT Takeda Indonesia periode September – Oktober, PT Anugerah Pharmindo Lestari periode November, dan Apotek Roxy Pondok Labu periode Desember, sebagai gambaran awal peran apoteker dibidang industri, distribusi, dan pelayanan. Selain belajar secara langsung dari mengamati, calon apoteker diharapkan mampu memperoleh wawasan, pengetahuan, keterampilan, dan pengalaman yang sesuai untuk melakukan pekerjaan kefarmasian.

.....The pharmacist profession has an important role in pharmacy work. One of the important things that must be done to become a professional pharmacist is to participate directly in the practice of pharmacy. Pharmacists are professionals in the health sector who play a role in providing information about the drugs to be consumed, ensuring that all aspects of the pharmaceutical industry are in line with the provisions of the GMP and are responsible for the implementation of drug distribution. Through the Pharmacist Professional Internship, it is expected that prospective pharmacists can understand what their duties and responsibilities are. The Internship are carried out from September to December 2021. Internships are carried out at PT Takeda Indonesia for the September – October period, PT Anugerah Pharmindo Lestari for the November period, and the Roxy Pondok Labu Pharmacy for the December period, as an initial overview of the pharmacist's role in industry, distribution, and pharmaceutical care. In addition to learning directly from observing, prospective pharmacists are expected to be able to gain insight, knowledge, skills, and experience that are suitable for carrying out pharmaceutical work.
