## Abstrak

Apoteker adalah sarjana farmasi yang telah lulus pendidikan profesi, dan telah mengucapkan sumpah berdasarkan peraturan perundang-undangan yang berlaku serta berhak melakukan pekerjaan kefarmasian di Indonesia. Salah satu syarat untuk lulus pendidikan profesi apoteker, harus mengikuti Praktik Kerja Profesi Apoteker (PKPA) di fasilitas pelayanan kesehatan maupun di fasilitas kefarmasian lainnya. Kegiatan PKPA ini menjadi salah satu wadah bagi mahasiswa profesi apoteker untuk mendapatkan ilmu secara langsung dan pengalaman di tempat kerja. Praktik Kerja Profesi Apoteker (PKPA) dilaksanakan pada bulan September-Desember 2021. Pelaksanaan Praktik kerja profesi apoteker di Apotek Roxy Pamulang untuk melihat gambaran peran apoteker di apotek. Pelaksanaan praktik kerja profesi apoteker di PT. Hexpharm Jaya Laboratories untuk mempelajari peran apoteker di industri farmasi. Selain itu, calon apoteker juga diberikan kesempatan untuk menganalisis masalah beserta solusi yang diberikan di masing-masing tempat praktik kerja yang dimuat dalam laporan praktik kerja profesi apoteker.

.....A pharmacist is a pharmacy graduate who has passed professional education, and has taken an oath based on the applicable laws and regulations and has the right to do pharmaceutical work in Indonesia. One of the requirements to pass the pharmacist's professional education, must follow the Pharmacist Professional Practice in health care facilities or in other pharmaceutical facilities. One example of pharmaceutical facilities, namely industry and pharmacies. This PKPA activity is a forum for students of the pharmacist profession to gain direct knowledge and experience in the workplace. The Pharmacist Professional Work Practice (PKPA) will be held in September-December 2021. Implementation of the pharmacist's professional practice at the Roxy Pamulang Pharmacy to see an overview of the role of pharmacists in pharmacies.
