Abstrak

Terdapat perdebatan mengenai kemampuan penulis fanfic (fan fiction) dalam menciptakan karakter dibanding penulis orific (original fiction). Sehingga, tujuan penelitian ini adalah untuk mengetahui apakah terdapat perbedaan kemampuan menciptakan karakter pada penulis orific dan penulis fanfic. Penelitian ini menguji perbedaan menggunakan desain non-experimental between subject dengan analisis independent sample t-test. Analisis independent sample t-test menunjukkan tidak terdapat perbedaan signifikan dalam kemampuan menciptakan karakter antara penulis orific dan penulis fanfic.

.....There was a debate about the ability of fanfic (fan fiction) writers to create characters compared to orific (original fiction) writers. Thus, this study aimed to find out whether there were differences in the ability to create characters between orific writers and fanfic writers. This study examined the differences using a non-experimental design between subjects with independent sample t-test analysis. Independent sample t-test analysis showed that there was no significant difference in the ability to create characters between orific authors and fanfic authors.
