## Abstrak

Seorang apoteker yang profesional harus mampu menerapkan ilmu pengetahuan yang telah diperoleh selama masa studi dalam melaksanakan pekerjaan kefarmasian. Sebagai upaya untuk meningkatkan pengetahuan dan keterampilan calon apoteker mengenai peran, fungsi, dan tanggung jawab apoteker serta mendapatkan gambaran pekerjaan kefarmasian, calon apoteker perlu melaksanakan Praktik Kerja Profesi Apoteker terlebih dahulu sebelum memasuki dunia kerja. Praktik Kerja Profesi Apoteker dilakukan di Apotek Roxy Jatikramat pada periode Januari 2022, PT. CKD OTTO Pharmaceuticals pada periode Maret – Mei 2022, dan Puskesmas Kecamatan Pasar Minggu pada periode Mei 2022. Setelah pelaksanaan Praktik Kerja Profesi Apoteker di apotek, industri farmasi, dan puskesmas tersebut, calon apoteker diharapkan dapat memiliki wawasan, pengetahuan, keterampilan, dan pengalaman yang cukup sehingga siap untuk memasuki dunia kerja sebagai apoteker yang kompeten dan profesional.

..... A professional pharmacist must be able to apply the knowledge that has been obtained during the study period in carrying out pharmaceutical work. As an effort to improve the knowledge and skills of prospective pharmacists regarding the roles, functions, and responsibilities of pharmacists as well as to get an overview of pharmaceutical work, prospective pharmacists need to carry out the Pharmacist Professional Work Practice before entering the working world. The Pharmacist Professional Work Practice was carried out at the Roxy Jatikramat Pharmacy in the period January 2022, PT. CKD OTTO Pharmaceuticals in the period March – May 2022, and Pasar Minggu Public Medical Center in the period May 2022. After the implementation of the Pharmacist Professional Work Practice in pharmacy, pharmaceutical industry, and public medical center, prospective pharmacists are expected to have sufficient insight, knowledge, skills, and experience so that they are ready to enter the working world as competent and professional pharmacists.
