Abstrak

The purpose of this book is to give the reader two things, to paraphrase Mark Twain:

Roots to know the basics of modeling networks and Wings to fly away and attempt modeling other proposed systems of interest.

The Internet phenomenon is affecting us all in the way we communicate, conduct business, and access information and entertainment. More unforeseen applications are still to come. All of this is due to the existence of an efficient global highperformance network that connects millions of users and moves information at a high rate with small delay.
