

International finance and open-economy macroeconomics

Gandolfo, Giancarlo, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20528527&lokasi=lokal>

Abstrak

This text had two editions, several reprints, and translations in other languages. However, the different pace of the revisions of the two volumes suggested to make them self-contained and independent from each other. The volume covering trade was published in 1998 (second edition 2014) under the title International Trade Theory and Policy. This is the second edition of the volume covering international finance (the first edition was published in 2001). This new edition contains a wealth of additional material that has been introduced thanks to the suggestions of colleagues and students and to the comments contained in book reviews. All has been thoroughly classroom tested in both undergraduate and graduate courses in various universities in Italy and other countries.
