### Abstrak

Rukhin, author Penelitian ini dilakukan dengan metode studi kualitatif deskriptif, dengan tujuan untuk melihat Analisa Langkah-langkah Pencapaian Sertifikasi ISO 14001 Klinik PT MONAGRO KIMIA dan kliniknya pada tahun 1998" di Kawasan industri Manis, Desa Jatake, Kecamatan Jatiuwung, Tangerang.

Dalam Kesimpulan yang didapat ditemukan bahwa secara umum Klinik PTMK ini sudah melakukan langkah-langkah yang dalam upaya pencapaian standar Prosedur ISO 14001 sehingga dapat memenuhi kebutuhan kelengkapan sertifikasi ISO14001.

Disarankan bagi Klinik ini agar terus melakukan perbaikan berkelanjutan, termasuk bila perlu melengkapi personel pada manajer Sumber Daya Manusianya untuk membuat program ini menjadi tujuan menyeluruh ke seluruh cabang di bagian negara Indonesia lainnya dan dapat dijadikan bahan referensi bagi Klinik kecil pelayanan kesehatan yang mau punya perjanjian kepedulian terhadap kualitas dan peduli terhadap lingkungan dimana dia berada.

*Analysis Certification Step Program On Iso 14001 in PT Monagro Kimia And The Clinic, Kecamatan Jatiuwung Kabupaten Tangerang On The Year 1998* This research survey is made by doing the methodology of a Descriptive Qualitative Study with some informants to gather the data for the purpose of "Analyzing the general steps preparation procedures for achieving the certification for ISO 14001 in 1998", Which is held in the scope of an American Corporate for Agro Chemical Industries PT MONAGRO KIMIA (MONSANTO INDONESIA) Clinic, at Manis industrial Estate, Jatake Village, Jatiuwung, Tangerang.

As the Summary comes it is well proven that the Clinic of PT MONAGRO KIMIA has done a committed management programs in general in order to meet the Certifications Standard Procedures as it is suitable for the Total Quality Management and Environment friendly company.

For more advisory matters this would made the Clinic to do even better for doing the continuous improvement, including needs to re-organize the Plant HR manager vacancy if necessary, for making this program as continuous goals throughout this nation for all regional areas in Indonesia, and can be made as reference materials by other small Clinics who serves medical care and committed to have a quality service, and friendly to the environment where it stands.
