## Abstrak

Pembangunan di Kota Depok terus berlangsung, sebagai daerah pinggiran Ibukota DKI Jakarta. Perkembangan pembangunan perekonomian daerah tergantung dari kondisi dan potensi sumberdaya yang dimiliki masing-masing daerah. Salah satu indikator ekonomi untuk mengukur kinerja pertumbuhan ekonomi suatu daerah adalah Produk Domestik Regional Bruto (PDRB). Dalam penelitian ini PDRB digunakan untuk melihat sektor basis dengan menggunakan analisis Location Quotient (LQ). Menurut perhitungan LQ per kecamatan di Kota Depok tahun 2012 dan tahun 2015 didapatkan hasil bahwa sektor basis pertanian terdapat di Kecamatan Bojong Sari, Limo, Sawangan, Tapos, Cipayung dan Pancoran Mas. Sektor basis industri pengolahan terdapat di Kecamatan Tapos, Cilodong dan Cimanggis. Sektor basis listrik, gas dan air bersih terdapat di Kecamatan Bojong Sari, Limo, Sawangan, Cinere, Cipayung, Pancoran Mas dan Sukmajaya. Sektor basis bangunan terdapat di Kecamatan Limo, Sawangan, Cilodong, Cimanggis dan Pancoran Mas. Sektor basis perdagangan, hotel dan restoran terdapat di Kecamatan Bojong Sari, Limo, Beji, Cinere, Cipayung, Pancoran Mas dan Sukmajaya. Sektor basis angkutan dan komunikasi terdapat di Kecamatan Bojong Sari, Limo, Sawangan, Cinere, Cipayung, Pancoran Mas dan Sukmajaya. Untuk sektor keuangan, jasa persewaan dan Perusahaan terdapat di Kecamatan Beji dan Sukmajaya. Sektor basis jasa-jasa terdapat di Kecamatan Limo, Beji, Cinere, Pancoran Mas dan Sukmajaya. Pada wilayah rural terjadi perubahan sektor nonbasis menjadi basis di Kecamatan Tapos yaitu pada sektor pertanian dan di Kecamatan Limo pada sektor bangunan, dan terjadi perubahan sektor basis menjadi nonbasis di Kecamatan Sawangan pada sektor perdagangan, hotel dan restoran dan di Kecamatan Tapos pada sektor listrik, gas dan air bersih, sektor perdagangan, hotel dan restoran serta sektor angkutan dan komunikasi. Pada wilayah urban terjadi perubahan sektor nonbasis menjadi sektor basis di Kecamatan Cilodong, yaitu sektor bangunan, di Kecamatan Cinere, yaitu sektor keuangan, jasa persewaan dan jasa perusahaan, dan di Kecamatan Pancoran Mas yaitu sektor bangunan dan sektor keuangan dan jasa perusahaan.

.....Development in Depok City continues, as a suburb of the Capital City of Jakarta. The development of regional economic development depends on the conditions and potential of the resources owned by each region. One economic indicator to measure the performance of economic growth in a region is the Gross Regional Domestic Product (GRDP). In this study the GRDP is used to look at the base sector using Location Quotient (LQ) analysis. According to LQ calculations per sub-district in Depok City in 2012 and 2015 the results show that the agricultural base sector was found in Bojong Sari, Limo, Sawangan, Tapos, Cipayung and Pancoran Mas Sub-districts.
