

New trends in educational activity in the field of mechanism and machine theory: 2014-2017

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=9999920521529&lokasi=lokal>

Abstrak

This book contains the Proceedings of the Second International Symposium on the Education in Mechanism and Machine Science (ISEMMS 2017), which was held in Madrid, Spain. The Symposium has established a stable framework for exchanging experience among researchers regarding mechanism and machine science, with special emphasis on New Learning Technologies and globalization. The papers cover topics such as mechanism and machine science in mechanical engineering curricula; mechanism and machine science in engineering programs: methodology; mechanism and machine science in engineering programs: applications and research; and new trends in mechanical engineering education.
