## Abstrak

Penelitian ini memiliki tujuan untuk mengevaluasi implementasi pemindahtanganan barang milik negara melalui proses hibah yang berlarut-larut penyelesaiannya dan menjadi temuan pemeriksaan Badan Pemeriksa Keuangan pada tahun 2011, dimana sampai dengan saat ini belum selesai ditindaklanjuti. Penelitian ini menggunakan metode deskriptif analisis secara kualitatif dan strategi penelitian single studi kasus. Hasil penelitian menunjukkan bahwa implementasi pemindahtanganan barang milik negara telah sesuai dengan PMK 165/PMK.06/2016 dan Logic Model Theory namun belum optimal dalam pelaksanaannya. Berlarut-larutnya penyelesaian pemindahtanganan ini disebabkan karena calon penerima hibah (masyarakat/Pemerintah Daerah) tidak berkenan menyampaikan surat pernyataan kesediaan menerima hibah. Perlu dilakukan perubahan rencana pemindahtanganan dari semula melalui proses hibah, agar dilakukan pemindahtanganan melalui penjualan atau melakukan penghapusan barang milik negara dengan alasan sebab-sebab lain.

.....This study aims to evaluate the implementation of the transfer of state-owned asset through a grant and became the findings of an examination by the Supreme Audit Agency in 2011, which until now has not been followed up. This research uses a descriptive qualitative analysis method and a single case study research strategy. The results of the study show that the implementation of the transfer of state-owned asset is in accordance with PMK 165/PMK.06/2016 and Logic Model Theory but has not been optimal in its implementation. The protracted settlement of this transfer was due to the fact that the prospective grant recipients (the community/local government) did not wish to submit a statement of willingness to accept the grant. It is necessary to change the transfer plan from the original through the grant process, so that the transfer is carried out through sales or write-off of state-owned asset for other reasons.
